E. E. Smith HS Hosts Annual Career College Fair

E.E. Smith High School sponsored their Annual Career College Fair Expo on February 17 in conjunction with National CTE Month. Students were introduced to a wealth of job and career opportunities available to them. The event was open to the majority of the students and featured twenty-five representatives from a variety of local businesses, organizations, and representatives from technical colleges and universities. Professionals from various fields shared information with students about career opportunities available to them after graduation. In addition, students were given opportunities to visit with representatives individually or in group presentations. To ensure further engagement, students had to complete a career fair activity sheet for a mandatory grade.

See some exhibits pictured below.

E. E. Smith HOSA Chapter Sponsors Blood Drive

The E.E. Smith High School HOSA Chapter, in partnership with the Cape Fear Valley Blood Donor Center, hosted their third on-campus blood drive for the school year on March 6, 2017. Over eighty students signed up to donate blood. We will continue to support the blood donor center in the fight against blood diseases such as leukemia and lymphoma. We were excited that so many students supported the blood drive in order to help the many people in need of blood. The E.E. Smith HOSA Chapter will continue the fight to help save lives with our next blood drive scheduled on May 8, 2017.
